

TO WHOM SOEVER IT MAY CONCERN

Mr. V.SRIHARI, an Engineer working in ECIL, Hyderabad is known to me for the past 7 years. He has very good exposure to Process Control and Real time automation systems. He was responsible for successful execution of the SCADA project for Power Distribution Network of Durgapur Steel Plant & Alloy Steels Plant, Durgapur under my supervision. He single handedly provided the total Hardware support for system Engineering, Design, Integration, Testing, Installation, commissioning and Maintenance support. As a Project Co-ordinator, he has shown high degree of maturity in interacting with various departments of DSP & ASP and also with the suppliers of various sub-systems.

Mr Srihari possesses rich experience in carrying out maintenance of computers, Remote Telemetry Units, Modems, Industrial Monitors, Function Key Boards, Transducers and allied equipment. His innovative technics in analysing the system faults are helping us in utilising the system most effectively.

During my association for the last 7 years, I found him sincere and committed to his assignments. Based on the interaction, I had with him, I had no hesitation in recommending his services for similar activities and I wish him all the success in his future endeavors.

TO WHOM IT MAY CONCERN

During my association with Mr.V.Srihari for the past 7 years, I found him knowledgeable and sincere in completing his assignments with great responsibility. He was involved from concept to commissioning and was directly responsible for executing the projects namely "SCADA system for Power Distribution Network of DSP & ASP" and "SCADA system for Captive Power Plant Islanding and load generation balancing". As a project leader, he was responsible for successful planning and execution of the above projects. He possesses very good skills in hardware design, testing and maintenance in addition to system engineering and project management. His knowledge on operation and maintenance of various subsystems like mini computers, PCs, Industrial monitors, PLCs, RTUs, Modems, Transducers and other Instruments is abundant.

Throughout my association with him, I found him very cooperative and quick in grasping our requirements to our satisfaction.

Mr. Srihari has very good communication skills and is good at interacting with customers as well as with suppliers. I feel, he is an asset to any organisation and am confident that, he can successfully complete any such assignment entrusted to him.

I wish him all the success in his future endeavors.

G.C. Sinha
